Allowable Subject Matter

Claims 1-6 and 13-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither teaches or suggests a method of calibrating an electrical system that inputs two different but predetermined voltages to determine the output voltages based on the individual but different predetermined input voltages, the predetermined voltage inputs are used to calibrate the circuit by determining the differing output signals and then using those output signals to calculate the offset and span constants in order to use those constants to calibrate the circuit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel I. Robinson whose telephone number is 703 306-9043. The examiner can normally be reached on M-F 5:30am-2:30pm.
